NATIONAL  
Republican Ticket.FOR PRESIDENT,  
**BENJAMIN HARRISON**  
OF INDIANA.FOR VICE PRESIDENT  
**LEVI P. MORTON,**  
OF NEW YORKPLAIN LANGUAGE FOR PLAIN  
PEOPLE.

In a late letter to a member of the Republican State Central Committee, Senator Jones embodies the following terse and ringing sentences, to which we invite the attention of every voter in Nevada who is disposed to the opinion that no great harm to the industries of the State would follow the election of Grover Cleveland. The Senator says: "It is marvelous to me how any voter of Nevada can support the Democratic party at this election."

"The Mills bill, if enacted into law, would destroy every leading industry of our State—wool, borax, lead, etc.—while the re-election of President Cleveland, owing to his vehement opposition to silver, would put off for at least four years longer all measures for the relief of the country on that question."

"It is well known that if it had not been for him we would now have an Act of Congress directing either free coinage or at least the maximum sum named in the Act of 1878—\$4,000,000 a month."

"With either of those provisions embodied in our statutes, silver would at once advance to a par with gold, and great impetus would be given to the mining interests of Nevada, in addition to the benefits that would accrue to the country at large from the full remonetization of the white metal."

"The advocates of silver here had a majority in both Houses of Congress during Cleveland's term, but not such a majority as to enable them to pass a bill over his certain veto."

"His view of the veto power is that it is to be used whenever a bill does not suit his ideas, no matter what the will of the people may be on the subject."

"His hostility to silver is so great that he would stand out against it, no matter how strong the popular will might become in its favor."

"His opposition to the 'Beck Amendment' (directing the issue of a silver dollar whenever a bank note was required) killed that excellent provision in the House of Representatives, notwithstanding that the silver men were in undoubted majority there."

"The dread of offending Cleveland has become the most prominent feature of the Democratic policy, and as long as he is in the White House we cannot expect fair treatment for silver."

"This is an argument appealing to every voter of Nevada, not merely as a question of abstract right, but also in the highest degree as a question of self-interest, and apart altogether from the question of protection, in which, as a matter of course, every bread-winner in the United States has a vital concern."

There is a meaning greater than mere words can express in the language of the twenty-four iron miners, who visited General Harrison, aptly observes the Beaver Falls, Pa., Journal, when they presented him with specimens of ore bearing the motto "Protect our wages and we'll buy your protection." To the farmers and storekeepers the language of these miners has a significance of vital importance, a meaning that can be appreciated more fully when the evil effects of free trade throughout the land has silenced the hum of industry that has made the country the most prosperous of the globe.

No wonder the Republican outlook is bright. The character and brains of the head of its ticket, backed by the business sense and large heartedness of the other end of the ticket, are strong enough to commend the party to the good sense of the American people.

It is a hopeful sign in American politics when a presidential candidate is able to go through a campaign in so clean a manner as has General Harrison. If he is never President, our candidate has in this performed a service of great value to American public life.

If the Republican party succeeds in preventing repeating in the tenement house wards of New York city slums, it will have performed a service for the purity of American politics in the future simply inestimable in moral value.

A Democratic circular is being distributed among old soldiers, claiming that more pension certificates have been issued, more money appropriated for pensions, and more private pension bills signed, since Mr. Cleveland became President, than during the term of any of his predecessors. Well, so have more people been born in this country; and Mr. Cleveland has had as much to do with the increase of population as with the increase of pensions. With the exception of a few certificates, which have been rattled through recently for political effect (we congratulate the beneficiaries on their good luck), the increased issue has been due, first, to the growing age and disability of the old soldiers, which has compelled a continually increasing number of them to apply for a pension; and secondly, to four particular pension laws, enacted by a solid Republican vote in Congress, aided by a few Democratic votes, and opposed by the great bulk of the Democratic vote in Congress. The facts are set forth in detail, in Extra No. 105, 2 cents a copy, issued by The New York Tribune, to show the exact truth of this matter. These four laws are Republican laws; and while the President signed the laws, as in duty bound, and by public opinion compelled, he had no more to do with the increase of pensions which followed than a crow on a tree, overlooking the farm, has to do with the fall ploughing going on underneath him. As for private pension bills, Mr. Cleveland has indeed signed a larger number of them than any of his predecessors. Why? Because more have been passed by Congress. He has killed all he could of them, 265 in number now; and he has striven, by repeated lectures to and remonstrances with Congress, to prevent any more being sent to him. For proof, see the records of Congress. But Congress has insisted on passing twenty or thirty bills a week, right along; and Mr. Cleveland has been compelled to sign them. It is difficult to see why he deserves any particular credit for any part of his course toward pensions. He could not do less than he has done. He ought to have done far more.

Election day is not far distant. The next two weeks will be busy ones for both parties. The admirable and thorough canvass that the Republicans have been making and will continue to make furnishes the most ample ground for the confidence which everywhere inspires and heartens them. The issue made by the other side is the very one on which Republicans have been desirous that the lines of battle should be drawn. They have an excellent National ticket, and there is no reason why the situation should change before November 6th, except in the direction of becoming more favorable. The Republicans hold the winning cards. All that is necessary is to play them right. The man who played the violin, no! by ear or by note but by main strength, didn't understand his instrument, but hard work is the way to win elections.

General Harrison has struck manly blows for Protection. American wages, and American homes. He has steadily gained in the esteem and confidence of the American people, and we think he will be the next President.

Look which way you will, you discover the progressive man to be a Republican.

## TENURE OF OFFICE.

The Carson Tribune speculates by saying:

"This paper has for years advocated but one term for a President of the United States and that six years be the tenure of such office, for if a man be never so efficient an officer he will surely make enemies during four years occupancy of the position, and also friends, who in order to hold positions to which they have been appointed by the President, will do all in their power to persuade him to try for re-election. This would not be the case were the term six years, with no possibility of being elected a second time, for under such circumstances the President would be entirely independent of friend and enemy; could suit himself as to appointments and devote himself and talent to the proper management of National affairs. By this reform we should doubtless elect more competent men, and the grandest position in the world, the Presidential chair, become more generally honored."

In State affairs there is also great need for reform, especially as regards the judiciary, which in every case from the District to the Supreme bench the officer should be appointed and the tenure of the office be life-long, contingent on proper conduct of the position.

By such means our Courts would be better managed and the Judges more independent. The appointments should be made by the bar of the District or for Supreme Judges by that of the whole State, and for any malfeasance in office the incumbent, so appointed, should be impeached by the same power, and if found guilty be not only dismissed from the position but debarred forever, not only in his own State, but of every one of the whole Union. No Judge of a Court should be permitted to go before the people asking their vote to elect or re-elect him. It is not the case in European countries where the ermine is seldom soiled by incompetent or venal hands. Of course the reforms attended to would necessitate a revision of the Constitutions of the United States and of the several States.

TO THE WAGE-EARNERS OF  
THE UNITED STATES!!

What is your interest in the coming Presidential Election?

President Cleveland has precipitated the conflict between the wage-earners of this country and the wage-earners of Europe. In all fairness and candor, I ask you, Can there be but one result, if the theory of Free-Trade is carried out, and that is the reduction of wages? Our markets in the present stage of steam are only ten days' distance in time from the European markets. Freight rates are so low that in all manufactured goods this item can hardly be taken into account in the cost of the merchandise. A difference of 5 per cent. in cost of manufacturing in this country over the cost in Europe, sends the orders by cable to any European market that is lower in price than our own; consequently the only protection labor has in this country over the labor in any European country is the action of a protective tariff. Then comes the question, Does the average wage-earner in this country receive higher wages and better net results than the wage-earner does in Europe? that is, can you live better, can you gain a home easier, can you educate your children better, can you lay by a surplus in case of sickness or old age, easier in this country than they can in the most crowded portions of Europe?

There can be but one answer to this question, and that is, yes. We see it everywhere; we see it in the healthier condition of our wage-earners; we see it in the way their wives and children are dressed; we see it in their homes (of which they very often own the title-deeds); we see it in the deposits in the savings banks (which are wholly the net results to wage-earners). In the United States there is due to 3,418,018 depositors \$1,335,247,371, an average of \$381.30 to each depositor. We see it in the fact that those who are able to get away from labor-oppressed Europe are emigrating to this country. All these are hard facts that the free-trader cannot get away from. Free-trade is a very pretty theory, but it is mainly professional men who advocate it, and it is gratifying to some to preach "that all the world are brothers," and that consequently we should not protect the labor of our own neighbors, our own citizens, who build our villages into towns, our towns into cities who consume our own raw products. Free-trade may be charity to foreign operatives, but I for one believe that charity begins at home first; that my own country is entitled to first regard; that the interest of the wage-earner of this country is my interest; that his success is my success.

I also believe that what European manufacturers want us to do is not for our interest to do. When every European paper hailed President Cleveland's message with delight as tending toward Free Trade, it convinced me that it was not the best interest of this country that he should be re-elected.

When a London paper thinks the best use they can make of Irishmen is to help them to immigrate to this country and join the Democratic party, and thus help to break down our Protective Tariff, that makes me think that our tariff is a great benefit to this country, and of course, I range myself on the side of Protective Tariff. The "Mills tariff bill" that is endorsed by the St. Louis Democratic Convention and President Cleveland, keeps about 80 per cent. duty on sugar (about \$50,000,000 to collect annually), about 100 per cent. on rice, the very articles that you pay a large percentage of, and reduces the duty on articles where your wages enter largely into the cost of production. I cannot think that the Mills bill is for the best interest of our wage-earners, and consequently I oppose it, and the President who favors it, although I voted for him in 1884.

The United States is the largest consuming nation per capital of any on the globe, and the reason of it is that our wage-earners are better paid than any other, and it is clear to my mind that the operation of a protective tariff is the reason of it. If we should reduce the tariff on articles into which labor enters largely in the cost; the forces of steam and electricity which have so reduced the time and cost of importing goods into this country, would without any doubt bring the cheap labor of Europe in direct and immediate competition with our own labor. Europe has the carrying trade on the ocean in her own hands; I do not want to have them convey our raw products to Europe in their vessels at the expense of our producers, and there convert them into a manufactured product with her cheap labor, and return them to us, when it will surely have the effect of reducing the price of labor that produces the same articles in the United States. All these are potent reasons to my mind why we should oppose the re-election of President Cleveland in 1888. I append a letter written by a Democratic merchant of this city that is very suggestive on this subject.

To my friends and readers I will say I have "two axes to grind," I am no politician, want no office, am an American, selfish enough to wish for my own country's best interests "first, last, and all the time" in preference to that of any other, and therefore am in favor of a protective tariff. H. K. THURSEN.

## Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. Feb. 21-st. F. J.

## NEW HARRISON RECRUITS.

Joseph Martin of Newburg, N. Y., prominent in local Democratic circles, has come out strongly for Harrison.

The Republicans of Tompkinsville, L. I., have just organized a club with forty-five members, eight of whom voted for Cleveland.

George Pfeiffer, a wealthy farmer of Kanawha county, West Virginia, and a life-long Democrat, has joined the Republican party.

Two independent Ohio papers, the Burton Leader and the Middlefield Messenger, have begun to advocate the cause of Harrison and Morton.

Thos. W. Abl, the Pennsylvania iron manufacturer and protectionist, is reported as denying that he intends to forsake the Democrats.

J. C. Lyons, an influential Irishman in the Twenty-second Assembly District, New York, hitherto a Democrat, comes out for Harrison and Morton.

Ex-Mayor Hanson, of Fall River, E. E. Dean, of Brockton, and Dr. Rice, are some of the strong Massachusetts Democrats who will vote for Harrison and Morton.

H. M. Davidson, a prominent Grand Army man and leading Protectionist of Ogdensburg, N. Y., has come out strongly for Harrison and publishes his reasons.

John Fountain, of Chester, Pa., superintendent of Roach's shipyard, has been a Democrat, but no longer supports that party. He will vote for Harrison and Morton.

Sergt. Joseph F. Johnson, of the Sixty-ninth Regiment, New York, who supported Henry George for Mayor, is now an ardent worker for Harrison and Morton.

J. W. Davis, of Livingston Manor, N. Y., proprietor of the Hotel Davis, who has heretofore been in the Democratic fold, will cast a Republican vote in November.

John White and his three sons and John Gray, all leading farmers of Cotsville, Ohio, who have always voted the Democratic ticket, have joined the Harrison and Morton phalanx.

W. C. Randolph, a manufacturer of Palmyra, N. J., who is a strong Protectionist, says Fisk and Brooks are brevet Democrats, and he will vote for Harrison and protection. Thomas Wells, another Protectionist, and a number of Democrats are with him.

Ex-Constable W. D. Nutter, of Newark, O., a Democratic voter for forty-seven years, says that he has never been robbed or swindled by any one but Democrats, and that hereafter he will be found working with the Republicans. He has been a great worker for his party.

In 1884 the Buffalo (N. Y.) Evening News was an ardent supporter of Cleveland. The News is now doing good work for Harrison and Morton. E. H. Butler, the editor of the News, writes to a friend in Kansas City: "I am pleased to say that Cleveland will get no majority in Erie county. In 1884 he came within 1,400 of carrying the county and this year Harrison will carry the county by from 3,500 to 5,000 majority."

Col. Victor E. Pioletti, of Bradford county, Penn., Worthy Past Master of the State Grange and a distinguished Democrat, addressed 15,000 farmers at Williams Grove Wednesday and preached the straight Republican gospel with vigor, denouncing Cleveland and the Mills bill. Republicans consider this one of the most significant facts that have taken place in this State. Col. Pioletti is a man of large influence, having received high honor from the Democratic party.

General Harrison is both the nominal and the real leader of the Republican party, but if elected in November he will be, although Republican in policy and conviction, the President of the whole country, and of every interest and section. He is too broad-gauge to be less narrow than that.

Rev. Dr. McLeod, of the Second Presbyterian Church, of Indianapolis, says: "I am not a politician, and I do not talk politics, but I appreciate the importance of a good man—an enlightened Christian gentleman—at the head of the Government, and therefore I shall vote for General Harrison, as I believe will ninety-nine out of every hundred of the Presbyterian ministers of the North."

No man has done more for the success of the Republican cause this year than General Harrison himself.

## DICKIE JOSE.

Singing With Marked Success in New York.

The many friends and admirers of Dickie Jose will be gratified to learn that his singing is being received with marked appreciation by New York audiences nightly at Dockstader's theater. When his name is called to sing the beautiful new ballad written by M. H. Rosenfeld, "With All Her Faults I Love Her Still," he is greeted with applause and is compelled to repeat it two or three times each evening. Lew Dockstader appreciates Dickie's merits, and has signed with him for next season. Of Dickie's singing and song, the New York World says:

There was a full house at Dockstader's Minstrels last evening. The first part, or Social Session, Kalkreuth's Club, as it is styled on the bills, was better than usual. The selections of new songs were well received, and the old ones met with a recognition sufficiently encouraging to continue them. Near the close of the first part R. J. Jose sang the ballad, "With All Her Faults I Love Her Still," written by M. H. Rosenfeld, and which was published in the Sunday World, with such pathos and feeling that he won a hearty encore. Barry Maxwell's "Hurro for Casey" has a rollicking swing about it that calls to mind some of the old comic songs of the San Francisco Minstrels. Lew Dockstader's "I Guess Not" and "Sweatnam's 'Forever' are continuing on the programme on account of their great success last week. A skit, "Is Marriage a Failure?" was one of the new things of the evening, and the performance concluded with the political satire "On the Fence." The audience present seemed to enjoy the minstrel bill of fare.

Does your wife play the piano? Or if you have no wife, perhaps your best girl does. If such be the case, don't fail to get next Sunday's World, which will contain a most exquisite ballad entitled, "With all Her Faults I Love Her Still," written by that eminent composer, Mr. M. H. Rosenfeld. It will be sung by the famous tenor, Mr. Dick Jose, at Dockstader's Refined Minstrels on Monday evening for the first time.

One of the most beautiful ballads written in years will appear in Sunday's World. It is entitled "With All Her Faults I Love Her Still," and is from the pen of Mr. M. H. Rosenfeld. This song will be sung by the famous tenor, Jose, at Dockstader's Minstrels on Monday evening, and will be orchestrated by Wm. S. Mullaly. The Sunday World will contain it exclusively. Look out for it!

## THE SOLAR ECLIPSE IN NEVADA.

The astronomers who visit Nevada for the purpose of observing the total eclipse of the sun, next January, will occupy the most favorable position to be found in the United States. They will be in the center of the path of totality and on the top of Winnemucca Mountain they will stand 6,000 feet above the level of the sea. This altitude, however, is not the great advantage to be derived from the locality. That which will most aid the astronomers is the dry atmosphere of the Great Basin region—an atmosphere almost destitute of humidity. With good instruments better results will be obtained by the observers stationed on Winnemucca Mountain than by any other party in America.

## AN ALASKA MINE DIVIDEND.

The Alaska Mill and Mining Company has declared a dividend of 25c per share, payable on the 15th. As there are 100,000 shares, the amount is \$25,000. This is the first dividend this year, though the 11th in all, making, we believe, \$300,000. The mine is on Douglas Island, and the ore body is quite extensive, though there are many difficulties attending the working of the same. The mill has been recently increased from 120 to 240 stamps, making it the largest in the world. The mill has been running 220 stamps. There is enough ore in sight to last a long time.

## STORAGE RESERVOIRS.—The Carson

Appeal, of Wednesday morning, says: "H. M. Wilson, of the U. S. Hydrographic Survey, has arrived in Carson and will begin work at once surveying sites for reservoirs at the headwaters of the Carson." A survey is good as far as it goes, but in order to be of any practical use a dam must be built in accordance with the plans of the engineer. The construction of the works required to store up the water is the main point, and it is that which should be in some manner provided for. It will look like business when some provision is made for building dams.

## HOYT'S "TIN SOLDIER."

The above play has had large runs in all the theaters where it has been produced throughout the United States, and is one of the most comical plays written by Mr. Hoyt. Manager Piper has secured a strong company in this piece, and it will be produced at McKissick's Opera House next Thursday evening, the 25th inst. Seats are now on sale at Nash's Bazaar.

## LIVE STOCK SHIPMENTS.—The Silver

State is indebted to J. A. McBride, Station Agent for the following statement of live stock shipped from Winnemucca this season up to October 1st: Beef cattle, 4,714; horses, 211; calves, 401; sheep, 1,357. In addition to the above about 1,500 have been shipped from Iron Point, Humboldt House and Lovelock.

For rich and poor who wish to enjoy good health, and who do not wish to resort to bitter, nauseous liver medicines and cathartics, is the concentrated California liquid fruit remedy, Syrup of figs. Sold by Wm. Pfanniger, Reno.

**Carson's Reception.**—Senator Stewart was tendered a public reception at the Carson Opera House Wednesday evening. The place was crowded by men of both parties. The Senator was met at the depot by a band of music, bonfires blazed in the street and the Capital had a general gala appearance. The programme at the Opera House was: First—Music by the Choral Society; next, Address of Welcome, by General Alexander; response, by Senator Stewart; closing with music by the Society.

Sold by Wm. Pfanniger, Reno.

## A Warning.

The modes of death's approach are various, and statistics show conclusively that more persons die from diseases of the Throat and Lungs than any other. It is probable that everyone, without exception, receives vast numbers of Tubercle Germs into the system and where these germs fall upon suitable soil they start into life and develop, at first slowly and shows by a slight tickling sensation in the throat and if allowed to continue their ravages they extend to the lungs producing Consumption and to the head, causing Catarrh. Now all this is dangerous and if allowed to proceed will in time cause death. At the onset you must not with promptness; allowing a cold to go without attention is dangerous and may see you your life. As soon as you feel that something is wrong with your Throat, Lungs or Nostrils, obtain a bottle of Boecher's German Syrup. It will give you immediate relief.

## PLATFORM AND RESOLUTIONS.

The Republicans of the State of Nevada in convention assembled again express their loyalty to the principles of the Republican party, which have made the country so great and prosperous during the last quarter of a century.

**Resolved,** That the question of a sufficient supply of a circulating medium to maintain a permanent range of value of labor and property is the most important political question awaiting solution by the American people.

**Resolved,** That a diminishing quantity of money reduces the price of labor and property increases the obligation of contract, enriches the creditor, impoverishes the debtor, and paralyzes industry and enterprise.

**Resolved,** That the present financial system of the United States, which increases or diminishes the circulating medium at the pleasure of the manipulators of the National banks, without regard to the increase of population or the wants of the people, and which recognizes gold as the standard of value, and places in the hands of the Treasury Department all the revenue of the Government to speculate with in bonds and loan to National banks without interest, is subversive of the rights of the people, oppressive, unjust, and should be repudiated.

**Resolved,** That a financial policy whereby both gold and silver shall form the basis of circulation, where the money used by the people be coin, or in certificates redeemable in coin, or both, as convenience may require, is imperatively demanded.

**Resolved,** That the attempt to substitute National bank notes, costing the Government millions of dollars annually, for free silver, costing nothing, is an outrage upon the people, that the money ring or trust, which has usurped the sovereign power of the Government to issue money, and which has fraudulently demonstrated silver and reduced the revenue of the Government for private speculation, shocks the moral sense of the people and destroys respect for Government and law. We demand that this ring or trust be destroyed and equal rights restored to all people.

**Resolved,** That we charge that President Cleveland is the willing tool or agent of a powerful money ring which fattens the subsidies of the Government, makes war on silver, issues its paper currency at the expense of the Government, borrows the money raised by taxation, and uses them without the payment of interest, contracts the currency to enhance the value of bonds, and enriches the users while it depresses the price of labor and property.

**Resolved,** That we favor the nomination of no man for President who is personally interested in National banks or the bonded indebtedness of the United States, but we demand a candidate who is free to do justice to all the people of the country—the poor as well as the rich.

**Resolved,** That the trickery of the President and his advisers by which they prevented a vote in the House of Representatives on the Beck silver amendment, and the bonded indebtedness of the United States, but we demand a candidate who is free to do justice to all the people of the country—the poor as well as the rich.

**Resolved,** That we are in favor of the protection of home industry, and that the laborers of this country have a right to all the work required to supply the people of the United States, and that we are in favor of his wages in this country, and to that end will protect the wage-workers competition with the cheap labor of other lands.

**Resolved,** That the policy of the Government should be inaugurated and established by the people, through their representatives in both Houses of Congress, and not by the President or the money trust, of which he, either as agent or head, is most active in defending.

**Resolved,** That we charge President Cleveland with violating every promise he made in favor of civil service reform, with crippling the mail services, with refusing to sign necessary bills for the improvement of rivers and harbors, with using the power of his Administration to prevent appropriations for a navy and coast defense, with attempting to destroy the protective tariff, with courting the good will of other nations at the expense of the citizens of the United States, and with joining the foreign bondholders to demonstrate silver and destroy the industries of our country, and for the reduction of wages of the Mint employees at Carson for closing the Carson Mint when it was not only self sustaining but a source of revenue to the Government, for its contemptuous veto of pension bills for the relief of disabled soldiers and sailors, and for failing to construct the Government building at Carson as required.

**Resolved,** That we are in favor of the absolute exclusion of Chinese, and the restriction of immigration, by which the present overcharged condition of the labor market is made worse, and also favor legislation by which a revision of our naturalization and land laws may be accomplished.

**Resolved,** That we demand, in behalf of our various industries, the retention of the duties on lead, borax, soda, hides and leather, and to restore the tariff of 1867 on wool.

**Resolved,** That we recognize the right of labor to organize for its lawful protection.

**Resolved,** That we favor the submission by the Legislature to the people of an amendment to the Constitution giving the Legislature the power to regulate the liquor traffic.

**Resolved,** That we favor liberal appropriations by Congress for hydrographical and topographical surveys in this State to the end that the waste waters may be preserved for the purpose of irrigation.

**Resolved,** That we endorse the wise and conservative administration of Governor C. O. Stevenson, and we heartily commend the able efforts of Senators Stewart and Jones and Representative Woodburn in behalf of the interests of the people of this State.

**Resolved,** That we favor the granting of all Government land within the State for the purpose of providing means for irrigation and other improvements.

**Resolved,** That we favor the reduction of the Treasury surplus by the payment of pensions to Union soldiers, their widows and orphans, the improvement of rivers and harbors, the building of defenses for our sea-coast, the erection of public buildings, the creation of a navy, the purchase of bonds and the repeal of the internal revenue laws taxing tobacco.

**Resolved,** That it is the duty of the State to maintain free non sectarian schools in the rural and sparsely settled districts as well as in towns and thickly settled sections, and that such a division of the school money should be made as will furnish the means of education to all children in the State.

**Resolved,** That we are in favor of reopening the Carson Mint for coinage, and raising the wages of its employees to the standard paid by the last Republican Administration.

**Resolved,** That we demand the restoration of the mail service in this State to the efficiency maintained by the last Republican Administration, and favor the payment of fair wages to all postal employees.

## 250 Beautiful Lots For Sale!

A RARE CHANCE FOR INVESTMENT AND A HOME

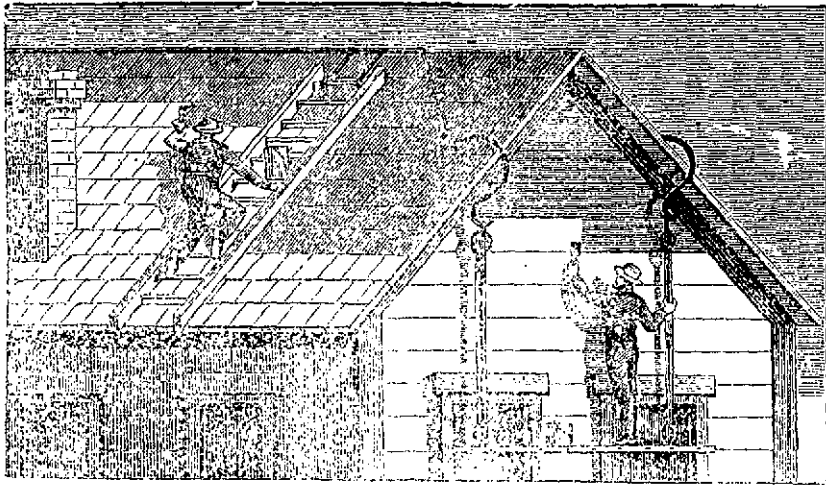

THE MOST LOVELY PORTION OF RENO.

Facing the Truckee—The Aristocratic Riverside Avenue Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the Tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

### SUMMONS.

IN THE DISTRICT COURT OF THE STATE of Nevada, in and for the county of Washoe. The State of Nevada sends to Isaac Weston GREETING: You are hereby required to appear in an action commenced against you as defendant by Orlando Evans as plaintiff, in the District Court of the county of Washoe, State of Nevada, in and for the county of Washoe, State of Nevada, and answer the complaint therein within ten days after the service on you of this summons—exclusive of the day of service—if served in said county, or twenty days if served out of said county, but within said district, and in all other cases forty days; or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to recover from you the sum of three hundred and fifty dollars in the gold coins of the United States, for money had and received by defendant to the use and benefit of plaintiff and belonging to plaintiff, demanded by plaintiff of defendant, to pay which or any part thereof defendant has heretofore failed and refused to pay, and still does fail and refuse to pay, together with interest thereon from date of judgment until paid at ten per cent per annum and for costs of suit, all of which will more fully appear from the complaint, which is on file in the office of the Clerk of said Court at Reno, in said county. And you are further notified that if you fail to appear and answer said complaint, the said plaintiff will take judgment for the said amount besides interest and costs of suit.  
In testimony whereof I, T. V. Julien, have hereunto set my hand and affixed the seal of said Court this 11th day of January, 1887.  
T. V. JULIEN,  
Clerk of the District Court of Nevada, in and for Washoe county.  
S. D. King, Attorney for plaintiff.

### TO THE CITIZENS OF RENO.

HAVING PURCHASED THE RENO GAS Works, and with a view of increasing the consumption of gas, the company respectively gives notice that they are prepared to introduce gas, put in pipe and fixtures, in stores, dwellings, etc., and at prices to cover cost only.  
The company will also put on new tips and burners for customers whenever requested, free of cost.  
Persons wishing gas will please leave their orders at the gasworks, as no one is permitted to introduce gas into premises from the street mains or set meters, but the gas company.  
Will also state that gas is not being manufactured in Reno as an auxiliary to any other light, therefore no reasonable person will expect a meter to be left with him standing idle while he is consuming other light.  
With a constant supply of good gas at low rates the company hopes to merit and receive a liberal patronage from the people of Reno,  
A. PIERCE, Manager.

#### PLATFORM.

The Republicans of Washoe, proud of the past and hopeful for the future, heartily endorse the platform and nominees of the National Republican Convention, as adopted at Chicago, and the Republican State Convention at Winnemucca, and pledge a routing majority for Harrison and Morton and Protection, and Murphy and Bartine and the ticket nominated by this Convention. We demand legislation from both Government and State in regard to irrigation, and for the improvement of our natural waterways, as well as for the storage of water, whereby the natural advantages of this section can be improved to their fullest capacity. We demand the most rigid economy in State and County affairs, and the establishment of the State's expenses upon such a basis as will secure good government at the lowest rate of taxation. We insist that a rate of seventy-five cents should be and is sufficient to provide revenue for the State Government.  
In view of the rejection of the new Chinese treaty by the Mongolian Government, we demand the total and absolute exclusion of all Chinese, and they must go.
